

## WHEN EVERYTHING MATTERS

*Personnel, Supplies, Equipment, Location, Route and Tracking*

Since 2007, the U.S. Army has trusted Apptricity in Theater Operations for logistics and operations globally for asset accountability, visibility and readiness to meet their critical mission requirements.

- Our integrated software system delivers and enhances multiple vital accountability and logistical Common Operating Picture (COP)
- Our theater-tested solution compliments DoD directives for logistics and operations
- Provides data accuracy, complete auditability and accountability, time savings, and ease of use
- Facilitates automation from hand receipt, assignment, transfer of control, management, in-transit tracking to maintenance planning
- Deployed in Secure Internet Protocol Router Network (SIPRNet) and Nonsecure Internet Protocol Router Network (NIPRNet) environments
- Optimized to utilize mobile devices, CAC cards, RFID tags, barcodes and ITV/BFT networks

**We are the global provider of mission-critical mobile technology solutions.**

- Commercial off-the-shelf (COTS) applications delivering critical capabilities
- Specially priced licenses available
- Limited quantities available
